BCT等级分数表		
等级	单项分	总分

4. Scores and Certification

The BCT comprises five levels to define the business Chinese proficiency of the examination candidates. It is made up of 2 separate tests: BCT (Listening, Reading) and BCT (Speaking, Writing). Examination candidates may take one of the tests or both tests together. Scores for each skill (Listening, Reading, Speaking, and Writing) can range from 0 to 500, with 100 scores for each level. Since each BCT will be testing 2 skills, the total scores for each test can range from 0-1000, with 200 scores for each level.

Certification is available when the total score of BCT reaches the following.

Levels	Single Score	Total Score
1	0-100	0-200

3	201-300	401-600
4	301-400	601-800
5	401-500	801-1000

All examination candidates will receive a test report. If the total score for listening and reading comes to 201-400 points, the Level 2 “Business Chinese Test Certificate (listening & reading)” will be awarded. If the total score for speaking and writing comes to 201-400 points, the Level 2 “Business Chinese Test Certificate (speaking & writing)” will be awarded.
