Course Description: This course presents issues in global health and rehabilitation delivery systems from the viewpoint of many different disciplines with an emphasis on economically less developed countries.

Credit Hours: 3 credit hours, Web-based

Instructor Information: Augustine O. Agho, PhD
317.274.4702
aagho@iupui.edu
Coleman Hall, Room 120
Indianapolis, IN 46202-5119

Educational Objectives: Upon completion of this course, the student should be able to:
1. Compare and contrast health and rehabilitation delivery systems in the US to selected health systems around the world.
2. Analyze the impact of low health literacy on health status, maternal and infant health, and life expectancy in developing countries.
3. Assess the ecological aspects of global health.
5. List international organizations and funders of global health initiatives.
6. Discuss the impact of domestic and international politics on access to health and rehabilitation services in developing and less developed countries.
7. Discuss the relationship between women’s right and women’s health in developing countries.
8. Analyze the social determinants of health outcomes in developing countries.
9. Discuss ethical issues in global health.
10. Explain key characteristics and components of health care systems in developing countries.
12. Describe health seeking behavior across the world.
13. Identify and explain major infectious diseases and related problems in developing countries.
14. Compare and contrast the social and behavioral foundations of primary health care and rehabilitation services in developing countries.
Grading:
Points will be assigned for all graded activities. At the end of the course, the points will be added and the grades assigned as follows:
A= 90-100
B=80-89
C=70-79
A grade below a C is considered a failing grade

Course policies:
All students are bound by the School of Health and Rehabilitation Science’s Honor Code.

Cheating and plagiarism will not be tolerated and will be grounds for course failure and subsequent dismissal from the health sciences program.
Cheating: Dishonesty of any kind with respect to examinations, course assignments, alteration of records, or illegal possession of examination questions shall be considered cheating. It is the responsibility of the student not only to abstain from cheating but to guard against making it possible for others to cheat.
Plagiarism: Honesty requires that any ideas or materials taken from another source for either written or oral use must be fully acknowledged. Offering the work of someone else as one’s own is plagiarism. The language or ideas thus taken from another may range from isolated formulas, sentences, or paragraphs to entire articles copied from books, periodicals, speeches, or the writings of other students. The offering of materials collected by others in the form of projects or collections without acknowledgement also is considered plagiarism. Any student who fails to give credit for ideas or materials that are taken from another source is guilty of plagiarism.

All students have the right to expect the course instructor to provide a syllabus with objectives, be fair and impartial in her interactions with students, demonstrate respect for students, return assignments in a timely manner, be accessible with prior notice, and create an environment conducive to learning.

Request for accommodations:
Any student requiring accommodations to meet special needs must contact the course instructor prior to the second week of the fall semester. Accommodations will be based on documented needs.

HIPAA Compliance:
Recently enacted HIPAA regulations place stringent requirements on practitioners to protect the privacy of patients. When completing assignments that include patient related information, students must comply with the following guidelines:
1. Maintain confidentiality concerning all patient information.
2. Change the names of patients, referring providers, and facilities to preserve anonymity.
3. Restrict the use and/or disclosure of information, even though permitted, to the minimum necessary to accomplish the intended educational purpose.

NOTE: This course is cross-listed as both an undergraduate and graduate course. Course objectives, readings and assignments reflect differing expectations between undergraduate and graduate students.
