Educational Objectives: Upon completion of this course, the student should be able to:

1. Analyze demographic trends and changes in health indicators.
2. Compare legal protections for people with disabilities in economically less developed countries with these in more highly developed countries.
3. Analyze the roles and contributions of international donor agencies.
4. Discuss health problems and institutional responses to global health crisis.
5. Describe development processes and mechanisms of global health systems.
6. Discuss ethical issues related to health policy and management of international health research and community-based health and rehabilitation programs.
7. Discuss the relationship between global health and human rights.
8. Explain the financing of private and community-based health and rehabilitation services in economically less developed countries.
9. Formulate multi-disciplinary approaches to global health management.
10. Summarize economics and resource allocation issues in the delivery of health and rehabilitation services.
11. Compare and contrast global perspectives on informed consent, refusal of treatment, physician-assisted suicide, reproductive health, rationing of care, and conflict of interest.
12. Differentiate among countries regarding the practice of peer review and assessment of health outcomes.
13. Formulate model for planning public health projects and programs.

Grading:

Points will be assigned for all graded activities. At the end of the course, the points will be added and the grades assigned as follows:

A= 90-100

B=80-89

C=70-79

A grade below a C is considered a failing grade

Course policies:

All students are bound by the School of Health and Rehabilitation Science's Honor Code.

Cheating and plagiarism will not be tolerated and will be grounds for course failure and subsequent dismissal from the health sciences program.

Cheating: Dishonesty of any kind with respect to examinations, course assignments, alteration of records, or illegal possession of examination questions shall be considered cheating. It is the responsibility of the student not only to abstain from cheating but to guard against making it possible for others to cheat.

Plagiarism: Honesty requires that any ideas or materials taken from another source for either written or oral use must be fully acknowledged. Offering the work of someone else as one's own is plagiarism. The language or ideas thus taken from another may range from isolated formulas, sentences, or paragraphs to entire articles copied from books, periodicals, speeches, or the writings of other students. The offering of materials collected by others in the form of projects or collections without acknowledgement also is considered plagiarism. Any student who fails to give credit for ideas or materials that are taken from another source is guilty of plagiarism.

All students have the right to expect the course instructor to provide a syllabus with objectives, be fair and impartial in her interactions with students, demonstrate respect for students, return assignments in a timely manner, be accessible with prior notice, and create an environment conducive to learning.

Request for accommodations:

Any student requiring accommodations to meet special needs must contact the course instructor prior to the second week of the fall semester. Accommodations will be based on documented needs.

HIPAA Compliance:

Recently enacted HIPAA regulations place stringent requirements on practitioners to protect the privacy of patients. When completing assignments that include patient related information, students must comply with the following guidelines:

1. Maintain confidentiality concerning all patient information.
2. Change the names of patients, referring providers, and facilities to preserve anonymity.
3. Restrict the use and/or disclosure of information, even though permitted, to the minimum necessary to accomplish the intended educational purpose.

NOTE: This course is cross-listed as both an undergraduate and graduate course. Course objectives, readings and assignments reflect differing expectations between undergraduate and graduate students.
