Dear Faculty and Staff,

As a part of our commitment to providing open communication and seeking input regarding academic initiatives at the IUPUI level, Dean Sukhatme is inviting you to attend five town hall meetings this spring. The topics relate to our academic priorities: RISE, Honors College, 2012 campus accreditation, improving graduate education and support, and our role in STEM teacher production. Please add the following events to your calendars. We look forward to seeing you at the town halls and hearing your ideas for achieving best practice in each of these important areas!
