IUPUI FRESHMAN SCHOLARSHIPS

IUPUI administers over \$200 million in financial aid and scholarships every year to thousands of IUPUI students to aid them in paying for their education. Scholarships, awarded to students through many different programs at IUPUI, are usually awarded based on academic performance and potential for future performance. Some programs also look at leadership, extracurricular involvement and community service. Some also require financial need. See Scholarship Central at www.iupui.edu/~scentral/ for more information and where to obtain additional applications for other IUPUI scholarships not listed here.

One Application, One Transcript!

With this application, you may apply for multiple scholarships at the same time and need to submit only one copy of your most recent high school transcript. In some cases, you can even submit one essay for more than one scholarship. Recommendation forms/letters can also be used for multiple scholarships.

Recommendation forms: Forms must be completed by a teacher, academic counselor, clergy member or employer, those who can attest to your character and academic performance. **Recommenders cannot be family members.** If preferred, a recommendation letter can be submitted. These should be on letterhead and sealed with the recommendation form, then sent to our office. **Note:** Be sure recommendations speak to the type of scholarship for which you are applying.

Deadlines: *Deadlines for each scholarship vary. NOTE: Deadline means the date the scholarship application and materials must be received in our office, NOT POSTMARKED BY THAT DATE. Applications can be dropped off at the Scholarship Office drop box outside Cavanaugh Hall, Room 103 or may be faxed with prior approval.*

Multiple Scholarships: Some combinations of scholarship awards may be possible. Approximately 1,000 new scholarships are awarded each Fall. IUPUI usually limits scholarship awards so that they do not exceed full-time tuition, fees and books, which can range between \$7,000 - \$9,000 annually depending on how many credit hours a student takes. Additional awards may be considered for

students who choose to live in on-campus housing. Some students may also receive additional awards from their IUPUI academic unit (i.e. School of Science, Engineering and Technology, Herron, etc.). Scholarships at IUPUI are credited directly to the student account to be applied towards the balance on their bursar statement. The scholarship amounts received annually are usually split equally between fall and spring semesters.

Important Explanation about New SAT Scores: Please note that the new Writing section of the SAT will NOT be used as a scholarship eligibility criterion. Until more research is done on the efficacy and accuracy of this section, and best practices established about how to best evaluate this new section of the test, only the Critical Reading and Math portions of the test will be considered. Therefore, any required SAT score that is listed as an eligibility criterion

for the scholarships on this application represents the combined total of just the Critical Reading and Math sections only. All ACT required scores refer to the composite ACT score.

Scholarships and Tuition at IUPUI:

An IUPUI education offers many opportunities not available at other institutions because of its great location and partnerships with local businesses and neighborhood resources. When you add scholarships into the equation, the great deal just got better! Tuition at IUPUI is very competitive. For more information on tuition and fee rates, visit the Bursar website at: www.bursar.iupui.edu. See how far your scholarship dollars can go!

Abbreviations: For your convenience, we have summarized the materials necessary for each scholarship. **One of each is all you need to enclose.** Recommendation letters should be sealed in a separate envelope and enclosed, or sent separately by the recommender: remember they must be received by the deadline.
